

Mission

Mission

Partners for Progressive Israel is dedicated to the achievement of a durable, secure, and just peace between Israel and its neighbors, including an independent Palestinian state, as well as to building a more just society in Israel that ensures religious liberty, equality, and social justice for all its inhabitants. We also seek to deepen American Jews' understanding of the complexities of Israeli society in order to enhance their advocacy for a progressive Israel.

Partners for Progressive Israel advances its goals by:

- Linking with progressive Israelis and Israeli organizations to advance education in support of our joint ideals and values, creating partnerships between American Jews and Israeli counterparts;
- Working within the frameworks of other Jewish organizations and networks to promote our views and inform Jewish leaders, especially the **Progressive Israel Network (PIN)**;
- Disseminating information and opinion through publications, social media, our website, especially through our flagship publication, **Israel**

Horizons, a bimonthly online magazine with all-original content;

- Organizing events and programs, especially our **Israel Symposium**, which brings Americans Jews to meet with Israeli and Palestinian activists and leaders, building understanding and personal relationships;
- Holding monthly **Conversations with Israel and Palestine**, via telephone and online platforms, featuring key Israeli and Palestinian leaders, intellectuals, and activists.
