

# List of Settlement Products

*For a long time, Gush Shalom hosted a list of items produced in settlements; a resource for those wishing to prevent their shekels and dollars from bolstering the settlements. Due to legal pressure from within the Knesset, Gush Shalom was forced to remove the list of settlement products from their website.*

***Partners for Progressive Israel** has reproduced that list, with Gush Shalom's permission.*

## **List of Products from Settlements in the Occupied Territories**

### FOOD & BEVERAGES

*Note: Agricultural products (Vegetables, Fruit and Flowers), constitute a major part settlement production. They are usually mixed with products made in Israel, so currently, locating the exact origin of such products is nearly impossible. We want the Israeli authorities to make this distinction possible by stating clearly whether a certain product is imported from Israel or from a settlement.*
