STOP the Incitement Against the Arab Citizens

We are a group of Israelis and North American supporters of Israel who are committed to the peace, security and welfare of the State of Israel, and all of its citizens. We are cognizant of the complicated and often challenging relationship between the Government of Israel and Israel's Arab citizens and firmly believe that expressions of criticism toward different positions are legitimate within the framework of respect for democratic values of freedom of expression.

We are gravely concerned by the recent escalation of inciting statements against Arab citizens of Israel and their leadership by Government Ministers and even by the Prime Minister himself.
