Conversations with Israel and Palestine

Partners for Progressive Israel is committed to bringing voices from both Israel and Palestine to our American audience, providing an important link between progressives in the U.S. and those in the Middle East. On a monthly basis we ask Israelis on the left—among them, members of Knesset, representatives of key NGOs, academics, and journalists—to join their Palestinian counterparts in informing those of us at home about critical issues of the day in the region. Although we attempt to find dialogue partners, occasionally just one individual will speak. Formats for the Conversations vary; our preferred medium is the webinar, although on occasion we organize conference calls. Anyone who cannot attend a live webinar or call can find a recording or podcast on our website.
